

## Cardiomyopathy Change Maker Application Form

Thank you for expressing interest in becoming a Cardiomyopathy Change Maker! We are delighted to hear that you would like to participate in this project.

Please look through the role profile before completing this application form to make sure that you meet the criteria and are comfortable with what being a Cardiomyopathy Change Maker involves. This is a new volunteering role, so please feel free to email Natalia ([Natalia.bartolome-diez@cardiomyopathy.org](mailto:Natalia.bartolome-diez@cardiomyopathy.org)), to chat through any questions you may have, or about the wider project.

As Cardiomyopathy Change Makers will be working alongside key decision makers and will have an important and significant role in changing healthcare services, we will be holding informal interviews to ensure we find the right people for the role. The information you share in this application will help us in making shortlisting decisions. There are no right or wrong answers. We suggest no more than 200 words per question.

We hope you find this process simple, but if you need any help filling in the form or would prefer a paper copy, please email Natalia. You can also post it back to: Cardiomyopathy UK, Unit 10 Chiltern Court, Asheridge Road, Chesham, Bucks, HP5 2PX.

We have many volunteering opportunities available across the charity and will look to find opportunities for you to share your skills and experiences with us. We will let you know about other ways you can get involved during the application process.

**Information provided by you will be treated in strict confidence.**
